To use the plugin you need to have ProTools installed on your Windows PC. To install the plugin, simply download the file R-Sample Factor.zip to your desktop and then unzip the file to a location of your choice. After unzipping it you can locate the R-Sample Factor PlugIn in the folder Plugin\PlugIn\R-Sample Factor. Once you have unzipped the plugin, double click the R-Sample Factor PlugIn. This will bring up the Pro Tools Plugin Installer, as shown in Figure 1. Figure 1 - The Pro Tools Plugin Installer Figure 1 shows that there are some plugins available to you. We are interested in the "Plugin" folder. If it is not there then click the button "+" and add the Plugin folder by selecting "Plugin Folder...". Figure 2 - Adding "Plugin" Folder to Pro Tools Figure 2 shows the "Plugin" folder in the Pro Tools Plugin Installer. Figure 3 - Plugin Folder Figure 3 shows the Plugin Folder, which contains all the plugins, including the R-Sample Factor. As you can see there are a number of plugins in this folder. The important one we are interested in is named R-Sample Factor. Figure 4 - R-Sample Factor PlugIn Figure 4 shows the R-Sample Factor PlugIn. This is our plugin. As you can see it has been archived, compressed, and placed in a folder named Plugin. Figure 5 - Installing the R-Sample Factor PlugIn Figure 5 shows the Pro Tools Plugin Installer window, and within that window is a list of plugins we can install. If we click on the blue arrow next to R-Sample Factor, it will show us the Plugin Details. As you can see, in the Plugin Details window there are some items that we can change. We change the name to "Sample Factor". We then click the "Install" button. Figure 6 - R-Sample Factor Plugin Details The Pro Tools Plugin Installer will then ask us if we want to overwrite the current plugins. Click OK. Figure 7 - R-Sample Factor Plugin Installed Figure 7 shows the PlugIn is now installed. When you next launch Pro Tools, you will now see the R-Sample Factor PlugIn. We are now going to install the bundled DSP as well. Figure 8 - R-Sample Factor

I need a bit of randomness when we load. What is the simplest way of doing this? I have a column that is used to store a character of data in the system. We use Oracle A: Sounds like what you need is a RAND() function. You can find examples of this here. Japan an Asan general August 12, 1989 KANDA -- Today, I can honestly say: ``I have never felt happier than when I left this world and gained life in the land of gods. I am going to this heaven.`` I can also say now: ``I have never known a happier life than that of a widescreen general.'' My questions are these: Why is it that I am here, instead of elsewhere, like Jiang Nan, for example? Why is it that I have left behind me the world and returned to
